THE TIMELESS  
BEAUTY OF  
SOLID WOOD

COLLECTION 2015

WOOD IS ALL THE EMBELLISHMENT YOU NEED

# OUR STORY

One single container full of decorative items from Indonesia. That is how our story began. In 1995, Antwerp entrepreneur Philippe Delaisse decided to bring back a container of furniture and interior accessories from his holiday in Indonesia, in order to sell them at home. Long time friend Benoit Loos heard about it and joined forces with Philippe. Together, they started to import one container every few months. After just one year, they had clients waiting at the Antwerp docks, numbered ticket in hand, to buy that one special item they coveted. The partners very quickly decided that they wanted to design and produce their own furniture, and set up their first manufacturing site in Indonesia. Today, our brand is considered an international trendsetter with a huge impact on the market worldwide. In addition to our head office in Boom, we also have offices near Marseille, in Singapore, Indonesia and Hong Kong. Production facilities are spread over three different sites in Indonesia, Vietnam and Serbia and we currently employ around 2000 people.

In 2015 Ethnicraft branded furniture is sold through an extensive network of retailers in more than 50 countries worldwide. And we are still growing, with more and more customers in Asia, America and Europe specifically asking for the brand. A new chapter has begun.

## TABLES

We have an extensive collection of tables and side tables in many sizes and styles, suitable for all kinds of interiors, whether you have limited space or lots of it. Make a style statement with our oak Circle table for example. The design is based on a Japanese puzzle and the wooden legs slot together to create a sturdy base and a totally unique table.

Table becomes breakfast place becomes workspace  
becomes family table becomes long party table.  
Daily life has many different scenarios. The Slice extendable  
table is multi-functional and adapts to all circumstances.  
Do you prefer the rustic look? No problem. The Slice table  
is also available in teak (p.121) and walnut (p.173).

## BEDROOM & DRESSING ROOM

Bedrooms should be calm, quiet places where you can wind down after a long day at work. For our oak bedroom furniture we chose durable materials and unfussy lines to create a relaxed, easy-going atmosphere. Combine the furniture with timeless accessories and bed linen in natural colours to enhance the effect.

Our side tables are multifunctional:  
you can even take them out of the  
living room and use them as extra  
bedside tables.

FOR ALMOST TWO DECADES NOW, WE HAVE BEEN PRODUCING FURNITURE IN SOLID TEAK. TEAK IS THE EXTREMELY STRONG, DURABLE WOOD FROM THE TECTONA GRANDIS, WHICH GROWS IN THE EAST INDIES. THE WOOD HAS A WARM, INTENSE GLOW THAT MAKES TEAK FURNITURE EXTREMELY COSY AND ATTRACTIVE.

## OUR COLLECTIONS

Our designs go back to the essence of good furniture: we strive for impeccable craftsmanship and create sustainable pieces full of character, made from solid teak that ages beautifully. Our design team is constantly experimenting with innovative techniques to treat the wood and to combine it with other, surprising materials.

The Nordic range is a stunning combination of refined design and the pure beauty of solid wood. The bevelled edges give this furniture an extra finishing touch. A selection of the Nordic collection is now also available in teak and walnut.

## ABOUT SOLID WOOD

Wood, like any other natural porous material, continues to absorb and release humidity throughout its life. Ethnicraft designs furniture that adapts well to the hygrometric conditions of its environment. The design allows the wood to expand and contract.

Variations in wood grain, texture, colour, knots and other naturally occurring characteristics are inherent to solid wood. We believe that these imperfections contribute to the charm of Ethnicraft products. Wood is a product of nature, and we give our furniture the state-of-the-art, superior finish it deserves. Our craftsmen apply different techniques such as wood inlaying and the use of wood paste. Ethnicraft consciously selects a specific quality of wood that adds more character to its designs.

## OUR COMMITMENT

Wood has always been the core material in the Ethnicraft collection. Therefore we continuously think about the consequences for the environment and take environmental issues to heart: from the origin of the wood, the energy we use in the entire production and distribution process, to the treatment of the products and reduction of waste. Every day we try to be good stewards of the earth.

### THE ORIGIN OF OUR CORE MATERIAL

Ethnicraft's teak wood comes from two main sources. On the one hand, we carefully reclaim timber from neglected buildings or old warehouses, mainly from the island of Central Java in Indonesia. On the other hand, Ethnicraft works closely together with the Indonesian governmental body in charge of managing the teak plantations originally set up by the Dutch about 150 years ago. This government agency applies strict policies with regard to annual replanting, as well as to the size and quantity of trees felled each year.

As far as our oak is concerned, our partner factories work with French and Serbian oak from managed forests in Europe.

### NO WASTE

Production waste, such as remnants of logs, leftover wood and sawdust are re-used for other purposes. The sawdust from the logs is either used as fuel in the drying ovens or compacted as a basis for pallets. All the leftovers from cutting planks to size are recycled and used as base material or as finger joints for panels.

### FSC® LABEL FOR TEAK FURNITURE

Our commitment to the environment is reflected by the FSC® CoC (Chain of Custody) certification of our distribution centres.

FSC® is a worldwide independent, non-governmental, not-for-profit organisation that promotes responsible management of the world's forests. In other words, this organisation guarantees that products carrying the FSC® label come from forests that are managed so that they meet the social, economic and ecological needs of present and future generations.

In the case of Ethnicraft NV and Azur, the CoC certificate guarantees that the company is perfectly equipped to buy, stock and sell products with a specified FSC® certificate, originating from well-managed forests, controlled sources and reclaimed materials, or a mixture of these.

At the moment, several of the collections sold by Ethnicraft already have a FSC® 100% Recycled label, meaning that the products are made of reclaimed timber. These collections are indicated in the catalogue. Moreover, all efforts are being made to increase the number of collections with an FSC® label.

## HOW TO TAKE CARE OF OUR FURNITURE

### OAK FURNITURE

For our collections we only use oak sourced from managed forests in Europe. Our oak furniture is finished with a pigmented hardwax oil. This protective finish forms a natural coating, repelling most common substances and fluids, but is no foolproof guarantee against stains.

- For regular dusting, use a dry, non-fluffy cloth
- For cleaning, use a damp sponge or cloth (not too wet!) with a mild solution of water and natural soap (no detergent)

Cleaning & refreshing the surface

- For refreshing the surface of the furniture when the wood starts to feel dry or for removing stains, Ethnicraft recommends Osmo Liquid Wax Cleaner\* (3029). Do not use this product daily. The Liquid Wax Cleaner is no guarantee against stains.
- Not applicable to the Blackstone Ellipse

Stubborn stains & repairs

- Through time and depending on wear, the original hardwax coating on the furniture may need to be renewed. Make sure the surface is clean and dry. Use extra fine sand paper (minimum 320 grit) and work in the direction of the wood grain, then apply the Osmo Hardwax Oil Natural (3041). The oil protection is no guarantee against stains.

Note that for the Oak Blackstone Ellipse table, apply only the daily care treatment.

## TEAK FURNITURE

Our teak collection comes without a finish, or any kind of protective treatment. The wood is merely polished, allowing the natural oils to rise to the surface. The high density of teak has the advantage that stains stay on the surface and do not penetrate into the wood easily.

- For regular dusting, use a dry, non-fluffy cloth
- For cleaning, use a damp – not too wet – sponge or cloth with a mild solution of water and natural soap (no detergent). Frequent cleaning with a natural soap solution will gradually build up a protective layer: as the wood absorbs the soap, it will become more stain repellent.

Preventive treatment

- If you want to protect the wood from the start, give your furniture a protective coating. We recommend Osmo Hardwax Oil, clear mat (3062).
- This finish seals the pores of the timber, forming a natural protection.
- Even then stains and marks should be removed immediately. If the liquid or substance are left to penetrate the wood, the furniture will eventually get stained.
- This product will darken the wood slightly!

- Use extra fine sand paper (minimum 320 grit) in the direction of the wood grain and apply the Osmo Hardwax Oil, clear mat (3062).

## WALNUT FURNITURE

All walnut furniture is first tinted with coloured oil and then finished with natural oil. This finish forms a natural coating, protecting it against most substances and fluids, but is no complete guarantee against stains.

- For regular dusting, use a dry, non-fluffy cloth
- For cleaning, use a damp sponge or cloth (not too wet!) with a mild solution of water and natural soap (no detergent)

- For refreshing the surface of the furniture when the wood starts to feel dry or for removing stains, Ethnicraft recommends Osmo Liquid Wax Cleaner (3029). Do not use this product daily. The Liquid Wax Cleaner is no guarantee against stains.

## UPHOLSTERED CHAIRS AND UPHOLSTERED FURNITURE

The fabric of our seating collection ET and N101 is dry clean only, which means that using water and soap can have adverse consequences. It may lighten the colour on the part that is cleaned. Furthermore, taking off one cushion cover and washing it in the machine, even on a low temperature, will not only lighten the colour, but will also shrink the fabric.

The upholstery of our teak chairs is made of 100% Belgian linen. It cannot be removed and if stained, can only be treated with dry cleaning products.

Our leather Saloon sofas are designed for indoor use only. All leather must be cleaned with a dry or, if necessary, slightly dampened cloth. Avoid hard rubbing when cleaning. Vacuum the seat platforms to remove dust or crumbs. Our leather does not require feeding but can be enriched by using a quality leather cream.

*Our maintenance instructions apply to furniture that is frequently used, particularly dining, coffee and side tables. Every table has its own maintenance requirements, depending on lifestyle and needs of the user. You are free to choose which products you use. Ethnicraft, however, cannot be held responsible for the results.*

## HOW TO KEEP YOUR ETHNICRAFT FURNITURE IN PERFECT CONDITION

- Recommended humidity in the room: between 40% and 60%
- Ideal room temperature: 21°C during the day, not below 14°C at night.
- Avoid exposure to extreme conditions. Don't put your furniture near heating sources or in highly air-conditioned spaces.
- Although the furniture - apart from teak - is given a protective finish during production, it can still be susceptible to stains. We therefore recommend that any spilling is removed immediately to prevent staining.
- When cleaning the surface, always work in the direction of the wood grain.
- Like any natural material, oak will darken or yellow during its lifetime. Furthermore, teak and walnut will fade slightly when directly exposed to UV light (sunlight). Therefore it is recommended to shield your furniture from direct sunlight and to move objects placed on the furniture from time to time, to prevent colour differences.
- Use placemats to prevent hot pots, pans and cold glasses or bottles from leaving marks on the furniture.
