

USER'S MANUAL – LETTER OF WARRANTY

Thank you for your purchase. Please read the User's Manual carefully before using the device. The User's Manual contains important information on operating the device, its safety and maintenance, and must be considered as a part of the equipment. If any of the information included in the User's Manual is incomprehensible, please contact the manufacturer of the device. Incorrect use and improper handling may lead to damage of the device. Retain the User's Manual for future reference.

PRODUCT APPLICATION

Somavedic is a device which can reliably eliminate and then completely remove the undesired effects of geopathogenic, pathogenic and psychosomatic zones, water vein crossings, Curry and Hartmann lines including electrosmog and heavy metals. The Somavedic device has been constructed after conducting years of research and testing. It has been tested and verified by both experts in natural sciences, and by operators of diagnostic-therapeutic centres working with devices such as the **Time Waver**, **Bicom**, **Life-System**, and **Inergetics CoRe**. The Somavedic device also removes other negative influences that affect physical and spiritual health, for Somavedic is able to perfectly harmonize the body and soul. It harmonizes the family relationships and improves metabolism and sleep. It is important for cleansing at home as well as in the professional environment. Somavedic has a range with a radius of 30 m, which creates a sphere around the device with radiation pervading the walls of the building in the same way as the negative influence of geopathogenic zones.

RANGE OF MODELS

The Somavedic model range comprises Lumen (known as Harmony before 2013), Quantum, Harmonie, Medic, and Atlantik.

Somavedic Lumen removes all the undesirable effects of all types of geopathogenic zones, water vein crossings, and Curry and Hartmann Lines, which helps to activate the regenerative process in the human body, as well as in animals close by.

Somavedic Quantum is a stronger version of Somavedic Lumen, suitable for places frequented by more than 50 people per day, convenient for bioresonance centres, massage, cosmetic and other salons, shops and companies, all of which provide us with very positive feedback.

Somavedic Harmonie is based on the functions of Somavedic Lumen and is supplemented with frequencies for the extermination of parasites, viruses, bacteria and mould, which are removed within one to three months due to a non-chemical process of elimination.

Somavedic Medic This model combines the features of Somavedic Lumen and Somavedic Quantum with an increased efficiency. It is suitable for bioresonance centres, massage, cosmetic and other salons.

Somavedic Atlantik modifies the structure, properties, memory and energy potential of water, as confirmed by research by Dr. Masaru Emoto.

Somavedic Lumen

Somavedic Quantum

Somavedic Harmonie

Somavedic Medic

Somavedic Atlantik

USING THE DEVICE

Unpack the device and plug into a wall socket with a voltage of 230V (110V for U.S. states with the use of an adaptor); the control diodes on the sides of the device will illuminate. Do not turn the device off, the working voltage is 3V and electricity consumption is minimal. There is nothing to adjust on the device or the power source.

Lumen, Harmonie, Quantum and Medic models: Place the device preferably in the centre of a flat or a building. You will feel the effect after the first three hours; the premises will be totally cleansed within three to six weeks, depending on the degree of pathogenicity of the zones and the age of the building erected in such zones.

Atlantik model: The device is located under the last segment of a water filter. If you install it on the main inlet of your property's water main, it is necessary to do so under the plastic pipe at a maximum distance of 20 cm. It is recommended to consult the manufacturer regarding the most suitable method of installation. It is also possible to use it for a one-time water treatment in glass or plastic containers which are to be left above the Somavedic for 5 minutes at a maximum distance of 20 cm. There must be no metal obstacle between Somavedic Atlantik and the container, which should have only been previously used for non-carbonated pure water.

ADDITIONAL INFORMATION

Depending on the degree of pathogenicity of the premises or organisms, adaptation problems may appear over a period of a few days. Somavedic Lumen, Quantum and Harmonie have two white and two blue LEDs inside. Somavedic Atlantik has four blue LEDs. Somavedic Medic has a blue, red and a white LED inside. Should the luminous intensity of LEDs be too high at night time, it is possible to leave the turned on device in the transport polystyrene case featuring a slot for power supply cord in one corner. At the same time, the case serves as protection against damage.

MAINTENANCE

The device requires minimal maintenance. The device itself may be wiped with a fine cloth. Do not use liquid detergents because there is a risk of penetration into the device.

WARNING

- **The device is not a medical device and does not substitute medical care!**
- The body of Somavedic devices is made of glass, caution is therefore required!
- Always place the device on a stable and flat location with no risk of shaking or heavy wind. In the event of falling, injury could occur, or the device could be damaged.
- Protect the device from frost or sudden changes of temperature.
- Protect the device from extreme temperatures.
- Protect the device from direct sunlight.
- Do not immerse the device in water.
- Keep the device out of the reach of children.
- Protect the device from falling, impact or any mechanical damage.
- It is not recommended to place Somavedic under beds where people sleep.

COMPONENTS

- Paper and polystyrene case of the device
- Somavedic device
- Power source adaptor AC 230V, 50 – 60Hz / DC 3V * or 110V / DC 3V for U.S. states
- User's manual – letter of warranty

TECHNICAL SPECIFICATIONS

Input voltage: DC 3V

Dimensions of the device Somavedic Lumen, Quantum, Harmonie, Atlantik: height: 55 mm, width: 110 mm

Weight of the device: 0,75 - 1,5 kg, depending on the model

Dimensions of the device Somavedic Medic: height: 70 mm, width: 150 mm

Weight of the device: 1,5 - 2 kg

ENVIRONMENTAL PROTECTION:

Upon final removal from operation (at the end of the life of the device), remember to respect the concern for environmental protection, and recycling possibilities. Respect valid environmental regulations.

Somavedic manufacturer:

Somavedic Technologies s.r.o.

Vrbičany 63, 411 21, Czech rep.

Company ID No.: 246 89 173

Tax ID No.: CZ246 89 173

WARRANTY PERIOD

The warranty period for the device is 36 months. The warranty applies solely to faults in material, functional faults or faults originating in production. Faults caused by improper handling, mechanical damage and force majeure (lightning, earthquakes, etc.) are not covered by warranty. The warranty also does not cover faults caused by unprofessional or careless handling and usage not in accordance to the manufacturer's instructions. The warranty also does not extend to damages incurred by natural disasters, voltage spikes in the building's mains, forceful damage, and also mechanical damage of the device, e.g. by fall or such as displaying unwarranted manipulation with the device.

The device is functional and effective for a minimum period of five years. Maintenance repairs are done exclusively by the manufacturer of the device.
