

SVF 30 KIGA

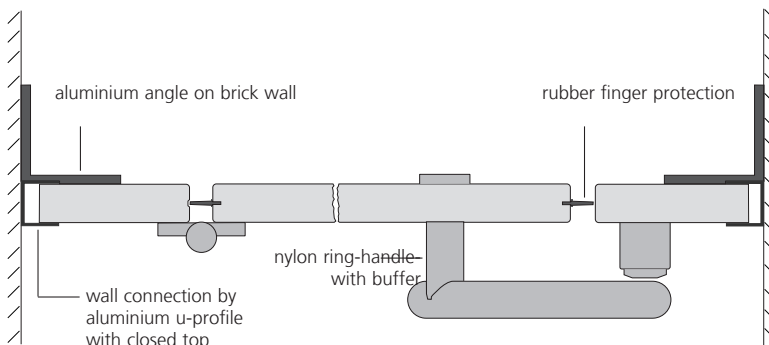

Large for the small ones. Cubicle type SVF30 KIGA combines outstanding quality with the stringent safety requirements which are necessary in these ranges. Simple care and maintenance-free construction as well as a responding optics make this type an excellent solution for kindergardens

(1) Cubicle system type SVF30 KIGA. Doors with finger guards on the jamb and opening side and safety ring handle.

(2) As no stabilising head profile is used for child daycare systems, additional solid aluminium brackets are fastened to the front of the separating walls as well as the brick-work.

(3) Finger guards on the jamb and the closing side in accordance with the safety requirements set by the GUV.

We reserve the right to alter specifications without notice.
