

VK 13 CHILD

Exclusively for the little ones. With its wide variety of options, the Schäfer VK13 KIGA cubicle system is the ideal system for the kindergarden sector. Individual colour combinations, unusual design options and the maximum levels of safety and stability are among the positive features of this partition programme.

(1) Cubicle system type VK13 KIGA with vertical aluminium profiles for optimum stabilization of the system. All section tops are sealed. Doors with finger guards on the hinge and closing side.

(2) Cubicle system type VK13 KIGA variant II "exclusive" with doors of a special visual appeal. Enables a com-

pletely individual design. Doors with finger guards on the hinge and closing side.

(3) Cubicle system type VK13 KIGA variant III. Doors with finger guards on the hinge and closing side.

(4) Protection against trapped fingers on the hinge side, complying with the safety regulations of the

GUV (Health and Safety Regulations). Partition connection to the front panel by means of coated aluminium angle brackets.
